# Open Science in Transport – the new normal ?

Source: Research Gate/Caterina Penone

Open Science (OS) is a modern movement that presents a new approach to practicing science in a way that increases openness, integrity and reproducibility of research.

This event aims at sharing the results of the BE OPEN project, and discuss further insights and ideas about Open Science, and how to make it the “new normal” in the transport domain.

# The programme

## Part I | Open Science: perspectives from Europe and beyond (13:05 - 14:00)

**Moderator** | Caroline Alméras, Secretary-General, ECTRI

(13:05 - 13:20) **Open Science: the new normal for practicing Science ?**

Kostas Glinos, Head of Unit for Open Science, European Commission, Directorate General for Research and Innovation

(13:20 - 13:35) **EOSC: A Web of FAIR Data**

Karel Luyben, Rector Magnificus Emeritus of Delft University of Technology and EOSC President

(13:35 - 13:50) **ITS Japan perspectives on Open Science**

Takahiko Uchimura, Senior Vice President, ITS Japan

(13:50 - 14:00) **Questions & Answers with audience**

## Part II | Promoting • Regulating • Standardising Open Science in transport, the BE OPEN contribution (14:00 - 15:00)

**Moderator** | Prof. Maria Boile, Director MSc in Shipping Dep. of Maritime Studies, Univ. of Piraeus & Head of Unit, CERTH-HIT & Affiliated Faculty, Center for Advanced Infrastructure & Transportation, Rutgers University

(14:00 – 14:10) **The BE OPEN challenges**, Maria Boile, CERTH-HIT

(14:10 – 14:20) **Delivering a framework for common understanding**, Dr. Afroditi Anagnostopoulou, Head of Economic & Social Impacts of Transport Systems Laboratory, CERTH-HIT

(14:20 – 14:30) **Proposing the European Code of Conduct on Open Science**, Christian von Buehler, Associate at Osborne Clarke

(14:30 – 14:40) **TOPOS Forum and Observatory, a single-entry point to explore, share & discuss transport research**, Natalia Manola, OpenAire CEO & Research associate in “Athena” Research and Innovation Center and University of Athens

(14:40 – 14:50) **Roadmap for promoting Open Science in transport**, Gereon Meyer, Head of the Department European and International Business Development at VDI/VDE Innovation + Technik GmbH

(14:50 – 15:00) **Questions & Answers with audience**

**Break** | (15:00 - 15:10)

## Part III | Panel discussion: How to make Open Science the new normal for transport research? (15:10 - 15:55) Reflection from information system provider, researcher, industry, librarian and publishing house

**Moderator** | Natalia Manola, OpenAire CEO & Research Associate in “Athena” Research and Innovation Center and Univ. of Athens

Monica Grosso, Transport Economist at European Commission, Joint Research Centre

Prof Tatiana Kováčiková, Member of EC Expert Group on OS - Transport Research Cloud, Head of the Department of Int. Research Projects – ERAdiate+, UNIZA, Slovakia

Dr. Fernando Liesa, Secretary General at ALICE, Alliance for Logistics Innovation through Collaboration in Europe

Wouter Schallier, Chief Librarian at ECLAC, United Nations

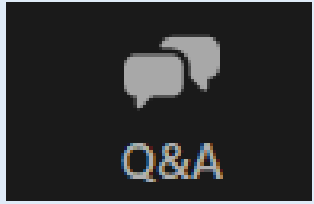

Angelina Wagner, Journal Development Manager, Springer, New York

**Open discussion with the panelists**

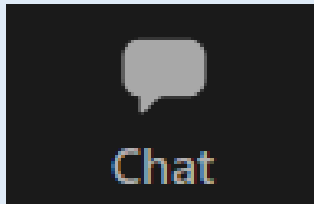

**Conclusions & closing** | Caroline Alméras, Secretary-General, ECTRI (15:55 - 16:00)

# Housekeeping rules & Communication

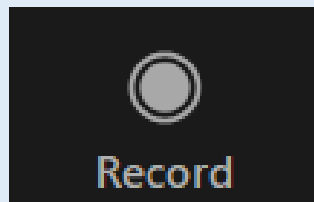

Microphone and video are disabled for the audience  
Use the **Q&A window** to ask questions to the panellists/speakers

The **chat** may be used:

- By the host to provide further information about the event
- By the audience to communicate with the speakers or report any technical issues

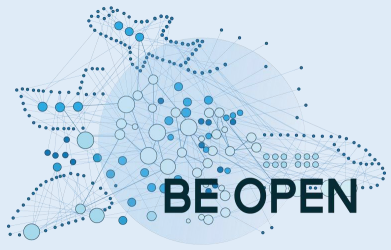

The event is being **recorded** and will be made available in the upcoming days together with the **presentations** at <https://beopen-project.eu/>

Want to comment, share views, communicate on the event, please use **#BEOPENproject** or tag us **@OpenScTransport**

## Part I | Open Science: Perspectives from Europe and beyond

BE OPEN project Final Event

June 9<sup>th</sup>, 2021

**Kostas Glinos**

Head of Unit for Open Science,  
Directorate General for R&I,  
European Commission

**Karel Luyben**

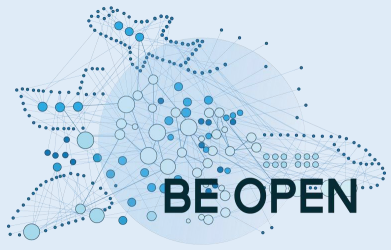

Rector Magnificus Emeritus of  
Delft University of Technology,  
the Netherlands, and EOSC  
Association President

**Takahiko Uchimura**

Senior Vice President, ITS Japan  
& Project Researcher at the  
Institute of Industrial Science,  
Advanced Mobility Research  
Center, University of Tokyo,  
Japan

**"Making Open Science the new normal for transport research"**

**Part II | Promoting · Regulating · Standardizing**  
**Open Science in transport, the BE OPEN contribution**

**Prof. Maria Boile**

BE OPEN coordinator,  
CERTH-HIT, Greece

**Christian von Buehler**

Osborne Clarke, Germany

**Dr. Gereon Meyer**

VDI/ VDE Innovation +  
Technik GmbH, Germany

**Dr. Afroditi Anagnostopoulou**

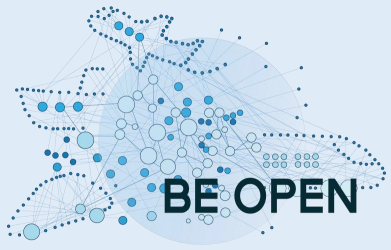

BE OPEN Technical manager, CERTH-HIT,  
Greece

**Natalia Manola**

OpenAire & Athena Research  
Center, Greece

**"Making Open Science the new normal for transport research"**

## Part III | Panel discussion

### How to make Open Science the new normal for transport research?

**Monica Grosso**

European Commission,  
DG Joint Research  
Center, Italy

**Dr. Fernando Liesa**

ALICE Alliance for Logistics  
Innovation through  
Collaboration in Europe, Belgium

**Prof. Tatiana Kováčiková**

ERAdiate+, University of Žilina,  
Slovakia

**Wouter Schallier**

ECLAC, United Nations

**Angelina Wagner**

Springer Nature, New  
York, USA
